In 2015, 11 states received at least **20% less funding** than in 2014.

## Deliver Now: Commit the Resources to Finish the Job

- Casualties continue to occur, there were an average of 18 per day in 2015
- Over 60 states and areas still have land to clear
- Too many victims lack access to the services they need
- Stockpiles remain that must be destroyed to guarantee no future use

Sustained resources, both international and national, are needed to attain a mine-free world by 2025.
